Relating To The Government

[Compliance Program Manual](#)

Government Investigations:

Emory Healthcare will cooperate fully with government audits and investigations.

Talk to your supervisor about who should accept subpoenas or audit requests. If you are given a search warrant, subpoena or other request for information about Emory Healthcare business, please notify your supervisor immediately. The supervisor will contact legal services for direction on how to respond.

Records requested by subpoena or audit letter will be identified, isolated and protected pending submission to the government. Destruction of the requested records must be immediately suspended in accordance with the Record Retention and Destruction Policy and Procedure until the completion of the investigation and the full response to any inquiry has been completed. The requested records must not be changed in any way.

The law gives us the right to be represented by legal counsel during a government investigation or inquiry. If you are contacted by a government agent for an interview, you may exercise your right to have an attorney present. Of course, you also may decide to be interviewed without an attorney. Please report the contact to your supervisor, legal services or the Office of Compliance Programs.

*"Perseverance
keeps honor bright..."
William Shakespeare*
